Complete Market Reports Corrected Eacs Day Giving the Wholesale Prices of Commodities, Farm Produce and Vegetables.

PORTLAND. July 6 .- There is nothing of a definite nature yet given out by the California packers and canners regarding prices for this season's product. Price lists are to be expected in a short time, however, as the season is getting well on to the time when retailers lay in stocks, In sections where fresh fruits and vegetables are not available, dried and canned goods are used the year round. As the stocks in jobbers' hands were cleaned up some time ago, they are having more or less embarrassment in explainby the situation to the retail trade.

Referring to cured fruits, the California Fruitgrower in its last issue says:

"The wide divergence of opinion as to what the market ought to be on practieally any and all lines of cured fruit still prevails. So far as apricats are concerned, the situation is unchanged. Peach prospects continue to diminish so far as the output is concerned, and very many of the larger operators are buyers and not sellers at this time. Orchards that promised six weeks or so ago a good erop have been dropping badly, and in many cases will not turn out anywhere near what was anticipated.

### Eggs and Butter.
